Dear airline customer,

With this letter, Schiphol would like to inform you about the adjustment of the airport charges and conditions of Amsterdam Airport Schiphol that will apply as of April 1, 2023.

On 2 September 2022, Schiphol published its formal proposal for the adjustment of charges, based on the settlement 2021.

When setting the charges and conditions, Schiphol has taken into account the views of the airlines that were put forward during the consultation period.

Schiphol decided to set the airport charges 2023-2024 unchanged compared to the proposal on 2 September 2022. This proposal for the adjustment of charges is a result of the 2021 settlements only. Based on received views, Schiphol has made some adjustments to the conditions for the check-in desk allocation rules (CIDAR), Schiphol Regulations and the License to Operate (LTO). Schiphol refers to the general outline for an overview of the written views received and Schiphol's response to these views.

As a result of the settlement 2021, compared to the 2022 charges, the average charge increase of 12% for 2023 consists of:

- an increase of 12.0% for the Passenger Service Charge (PSC)
- an increase of 12.0% for the Parking Charges
- an increase of 13.4% for the Landing and Take-Off Charges for handling at a connected stand during the day (noise category S3)
- an increase of the Security Service Charges (SSC) of 12.1%
- an unchanged NOx Charge
